## Death Investigation

The Wauconda Police Department is conducting a death investigation in the 2000 block of North Rand Rd. At approximately 8:51 A.M. Wauconda Police units responded to 2000 N. Rand Road for a report of an unoccupied suspicious vehicle. The complainant believed there was a large amount of blood inside the vehicle.

Officers arrived on scene and determined the incident was suspicious and immediately utilized K9 units and drones to search the large corn field adjacent to the building. The Wauconda Police K9 unit tracked into the field several hundred yards to the east and located a deceased male in his 40's. At this time the identity of the victim is not being released pending this investigation. The Wauconda Police Investigations Division is currently working with multiple law enforcement agencies on this case.
