Address:

Asbestos Unit
 1021 North Grand Avenue East
 P.O. Box 19276
 Springfield, Il. 62794-9276

Overview:

The Illinois EPA Asbestos Unit protects the people of the State of Illinois and the environment from asbestos exposure. Illinois EPA is the USEPA delegated authority to enforce the National Emission Standards for Hazardous Air Pollutants (NESHAP) for regulated asbestos during demolition, renovation and disposal.

Owners and operators subject to the National Emission Standard for Hazardous Air Pollutants (NESHAP) are required to submit a \$150 fee along with a Demolition/Renovation/Asbestos Project Notification Form 10 working days in advance of commencing a regulated asbestos demolition or renovation project.

- **Combined Demolition/Renovation/Asbestos Project Notification Form**

The Combined Notification of Demolition and Renovation form is used for notifications sent to IEPA, Illinois Department of Public Health (IDPH), City of Chicago and Cook County. A separate copy must be sent to each agency if you are required to send a form to IDPH, City of Chicago or Cook County. Electronic submission is not available at this time. Please print, provide original signature, and mail with \$150 fee or proof of electronic payment to the above address.

- **Initial Notification Electronic Fee Payment**

Visa, MasterCard, American Express, Discover, or E-Check (There will be a \$6.00 convenience fee charged by the card services agency for all electronic payment types.)

WARNING: Payment of fees alone does not constitute compliance with regulatory requirements. All forms and reports must be submitted as applicable for your source's regulatory requirements as well as proof of payment. Failure to submit the Asbestos Demolition/Renovation/Asbestos Project Notification Form to the Illinois EPA 10 working days prior to start date could result in additional fees or penalties.

Regarding Vermiculite Attic Insulation

The U.S. Environmental Protection Agency (EPA) offices have received a large number of phone calls from citizens concerned about vermiculite insulation in their home that might be contaminated with asbestos. EPA is gathering more information about vermiculite insulation and other products containing vermiculite. For more information, please refer to the following documents.

- Message to the Public about Vermiculite Insulation
- Stakeholder Letter regarding Vermiculite Insulation

Please Note: Some municipalities have permit fees or other regulations regarding asbestos abatement and/or demolition activities. Please check with local authorities prior to demolition/renovation activities.
